CUMULATIVE TABLE OF CONTENTS, VOLUME 18

Number 1
The Porphyrias
Rudi Schmid, M.D., Ph.D.

Foreword, Rudi Schmid, M.D., Ph.D., 1
Porphyria and Porphyrinology—The Past Fifteen Years, Antony F. McDonagh, Ph.D., and D. Montgomery Bissell, M.D., 3
Acute Intermittent Porphyria, Bernard Grandchamp, M.D., Ph.D., 17
Hereditary Coproporphyria, Pavel Martásek, M.D., Ph.D., 25
Variegate Porphyria, Ralph E. Kirsch, M.B.Ch.B., M.D., D.Sc. (Med), F.C.P.(S.A.), Peter N. Meissner, B.Sc. (Med) (Hons), Ph.D. (Med), and Richard J. Hift, M.B.Ch.B., M.Med. (Med), F.C.P.(S.A.), 33
Acute Porphyrias: Pathogenesis of Neurological Manifestations, Urs A. Meyer, M.D., Macé M. Schuurmans, M.D., and Raija L.P. Lindberg, Ph.D., 43
Acute Porphyria: Treatment with Heme, Raimo Tenhunen, M.D., and Pertti Mustajoki, 53
Diagnosis of Porphyric Syndromes: A Practical Approach in the Era of Molecular Biology, Herbert L. Bonkovsky, M.D., and Graham F. Barnard, M.D., Ph.D., 57
Porphyria Cutanea Tarda, George H. Elder, M.D., 67
Molecular Genetics of Congenital Erythropoietic Porphyria, Robert J. Desnick, Ph.D., M.D., Ian A. Glass, M.B., Ch.B., M.D., Weiming Xu, Ph.D., Constanza Solis, Ph.D., and Kenneth H. Astrin, Ph.D., 77
Protoporphyria, Timothy M. Cox, M.D., Graeme J.M. Alexander, M.D., and Robert P.E. Sarkany, M.D., 85
ALAD Prophyria, Shigeru Sassa, M.D., Ph.D., 95

Number 2
Apoptosis as a Mechanism of Liver Disease
Gregory J. Gores, M.D., F.A.C.P.

Foreword, Gregory J. Gores, M.D., F.A.C.P., 103
Dysregulation of Apoptosis as a Mechanism of Liver Disease: An Overview, Tushar Patel, M.D., Lewis R. Roberts, M.D., Ph.D., Blake A. Jones, M.D., and Gregory J. Gores, M.D., F.A.C.P., 105
Dysregulation of Apoptosis in Hepatocellular Carcinoma, Snorri S. Thorgeirsson, M.D., Ph.D., Tadahisa Teramoto, M.D., Ph.D., and Valentina M. Factor, Ph.D., 115
Regulation of Apoptosis-Associated Genes in the Regenerating Liver, Guangsheng Fan, M.D., Ph.D., Betsy T. Kren, Ph.D., and Clifford J. Steer, M.D., 123
CD95-Induced Apoptosis in Human Liver Disease, Peter R. Galle, M.D., and Peter H. Krammer, Ph.D., 141
Apoptosis as a Mechanism of Tissue Injury in Liver Allograft Rejection, Sheri M. Krams, Ph.D., and Olivia M. Martinez, Ph.D., 153
Apoptosis and Viral Hepatitis, Johnson Y.N. Lau, M.D., Xiaoming Kie, M.D., Michael M.C. Lai, Ph.D., and P.C. Wu, M.D., 169
Dysregulation of Apoptosis in the Cholangiopathies and Cholangiocarcinoma, Adriane Celli, M.D., and Florencia G. Que, M.D., 177
Apoptosis and Alcoholic Liver Disease, Amin A. Nanji, M.D., F.R.C.P., F.R.C.Path, 187
Book Reviews, Franklin M. Klion, M.D., 191

Number 3
Hepatobiliary Disorders of Childhood Pathophysiology, Clinical Features and Treatment
Jorge A. Bezerra, M.D., and William F. Balistreri, M.D.

Foreword, Jorge A. Bezerra, M.D., and William F. Balistreri, M.D., 193
Diagnostic Approach to the Child with Hepatobiliary Disease, Mounif El-Youssef, M.D., and Peter F. Whitington, M.D., 195
Liver Development: A Paradigm for Hapatobiliary Disease in Later Life, Jorge A. Bezerra, M.D., 203
Alpha-1-Antitrypsin Deficiency, David H. Perlmutter, M.D., 217
Liver and Biliary Problems in Cystic Fibrosis, Carla Colombo, M.D., Pier Maria Battezzati, M.D., Mario Strazzabosco, M.D., and Mauro Podda, M.D., 227
Disorders of the Mitochondria, William R. Treem, M.D., and Ronald J. Sokol, M.D., 237
Nontransplant Alternatives for the Treatment of Patients with Metabolic Disease, Hassan Hesham A-Kader, M.D., M.Sc., and William F. Balistreri, M.D., 255
The Intrahepatic Cholangiopathies, Audrey Birnbaum, M.D., and Frederick J. Suchy, M.D., 263
Immunological Liver Diseases in Children, Giorgina Mieli-Vergani, M.D., Ph.D., F.R.C.P., F.R.C.P.C.H., and Diego Vergani, M.D., Ph.D., F.R.C.Path, 271
Biliary Atresia: Pathogenesis and Treatment, Michael D. Bates, M.D., Ph.D., John C. Bucuvalas, M.D., Maria H. Alonso, M.D., and Frederick C. Ryckman, M.D., 281
Current Concepts in Pediatric Liver Transplant, Maria H. Alonso, M.D., and Frederick C. Ryckman, M.D., 295
Book Reviews, Franklin M. Klion, M.D., 309

Number 4
Glutathione and the Liver
Neil Kaplowitz, M.D.

Foreword, Neil Kaplowitz, M.D., 311
Role of the Liver in Interorgan Homeostasis of Glutathione and Cyst(e)ine, Murad Ookhtens, Ph.D. and Neil Kaplowitz, M.D., 313
Regulation of Hepatic Glutathione Synthesis, Shelly C. Lu, M.D.. 331
Human Glutathione S-Transferases, Richard Whalen, Ph.D. and Thomas Boyer, M.D., 345
Excretion of GSSG and Glutathione Conjugates Mediated by MRPI and cMOAT/MRP2, Hiroshi Suzuki, Ph.D. and Yuichi Sugiyama, Ph.D., 359
Roles of MRP2 and oatp1 in Hepatocellular Export of Reduced Glutathione, Nazzareno Ballatori, Ph.D. and James F. Rebbeor, Ph.D., 377
Mitochondrial Glutathione: Importance and Transport, José Fernández-Checa, Ph.D., Neil Kaplowitz, M.D., Carmen García-Ruiz, Ph.D., and Anna Colell, M.Sc., 389
Glutathione Defense in Non-Parenchymal Cells, Laurie DeLeve, M.D., Ph.D., 403
Glutathione Therapy: From Prodrugs to Genes, Mary Anderson, Ph.D. and Jia-Li Luo, Ph.D., 415
Letters to the Editor, 425
